

# COMP-3340-30 World Wide Web Information Winter 2024 COURSE SYLLABUS

## SCHOOL OF COMPUTER SCIENCE

## LAND ACKNOWLEDGEMENT

The School of Computer Science at the University of Windsor sits on the Traditional Territory of the Three Fires Confederacy of First Nations. We acknowledge that this is the beginning of our journey to understanding the Significance of the history of the Peoples of the Ojibway, the Odawa, and the Pottawatomie.

INSTRUCTOR:	Abdulrauf Gidado		
	E-mail:agidado@uwindsor.caOffice Location:Lambton Tower, Room 2101AOffice Hours:Wednesdays 5:00PM - 7:00PM		
	Note: Only email originating from a valid University of Windsor student account will be accepted from students wishing to contact the instructor or use the Bright Space email tool within the course site. Please include your full name, student ID and related course section in your correspondence. Do not spam with multiple or lengthy emails. Should you not receive timely feedback to your inquiries reach out during office hours directly, or in the event of no response contact the CS office at csinfo@uwindsor.ca for support to access the instructor.		
	*The course outline that is available after the end of the second week of the semester will be deemed correct and official.		
	Never used Microsoft Teams before?         Download the free MS Teams client for your device and login using your UWindsor account (uwinid). There are two ways to reach me, one using the direct chat to agidado@uwindsor.ca and another to our class group if you like to connect with your peers. It is a simple messenger type application allowing you to do chat, voice and video conferences with your prof and fellow students.         Getting Started - Students   Information Technology Services (uwindsor.ca)		
TEACHING A GOLGTANIT(G)	Please refer to BrightSpace for the GA/TA contact information and updated office hours.		
Assistant(s):	The teaching assistant(s) will be holding regular weekly office hours dedicated to helping students. It is highly recommended that you take advantage of this resource by seeking interactive assistance toward understanding the course materials and guidance for completing the homework. Graders are also accessible to review your graded work and help make corrections or fix grading errors. If you are facing difficulties in the course, please contact the instructor or the teaching assistant(s). You are expected to spend sufficient time completing all the readings and the assigned work. If you are not able to get hold of the teaching assistant(s) during posted office hours or do not get a timely response from them please report the matter promptly to the course instructor with the situation details. If you identify an exceptional assistant who goes above and beyond, please inform the instructor and consider nominating the person for related university/faculty awards for their commitment.		
	The School of Computer Science provides free tutoring services. Undergraduate Students <u>https://tutor.myweb.cs.uwindsor.ca/</u> MAC Students <u>https://mactutor.myweb.cs.uwindsor.ca/</u>		
PRE-REQUISITES:	COMP2120 and COMP2540 No student is allowed to take a course more than two times without permission from the Dean.		
LECTURES/LABS:	Wednesday 7:00PM – 9:50PM @ Toldo Health Education Ctr 200		
Course Description*:	Click or tap here to enter text. This course is designed for people who want to make their data available to others over the Internet. Topics will include WWW authoring, WWW site planning, executable programs that create dynamic documents, the client-server model, multi-tier WWW software architecture, and security aspects. *This description is from the official senate-approved calendar		

Learning Outcomes:	At the end of A. the acquis	(source: <u>https://ctl2.uwindsor.ca/cuma/public/courses/pdf/ec2a024d-804d-4074-9c7e-d131b5c33f33</u> ) At the end of the course, the successful student will know and be able to: <i>A. the acquisition, application and integration of knowledge</i>				
	2. Explain set	<ol> <li>Describe fundamental concepts of the Web, cloud computing, and information systems</li> <li>Explain service-oriented architecture.</li> </ol>				
	4. Develop an	recognize the benefits of different web application architecture and implement distributed applications and protocols over the Inter-				
		nstry-standard tools to create dynamic web applications. <i>kills, including the ability to define problems and access, retrie</i>	eve and evaluate information (information			
		<i>inking and problem-solving skills</i> eb application requirements.				
	D. literacy ar	nd numeracy skills				
		<i>be behaviour to self, others and society</i> and apply effective human-computer interaction principles.				
	<i>F. interpersonal and communications skills</i> <i>1. Present and explain the architecture of web applications clearly and concisely.</i>					
	G. teamwork	work, and personal and group leadership skills				
	1. Actively participate and contribute productively to project teams in different phases of projects. H. creativity and aesthetic appreciation					
	<i>I. the ability and desire for continuous learning</i> Click or tap here to enter text. Note: Students are strongly encouraged in participating in the course development and update process. Ple					
	to make record	mmendations for changes of the Learning Outcomes, Course De the program chair.

	2. The final exam schedule is announced by the Registrar's office, normally after the add/drop period, and students are expected to be available for the entire exam period and not make any prior travel plans, vacations, or other commitments until after the exam dates are announced. No alternate exams accommodations will be made on those grounds.		
	3. No forms of assessment shall be scheduled or made-due on days identified as break days such as reading weeks, holidays, or days that the University is officially closed.		
SPTs:	The Student Perceptions of Teaching (SPTs) forms will be administered in the last two weeks of classes for courses 12-24 weeks in duration, in the last week of classes for courses 6-11 weeks in duration, or in the last two days of classes for courses of 5 or fewer weeks in duration. Students should be provided with up to 15 minutes at the beginning of a class to complete the SPTs online. <u>Senate Policy</u>

STUDENT ACCOMMODATIONS:	Students with disability:         Students who require academic accommodations in this course due to a documented disability must contact an Advisor in Student Accessibility Services (SAS) to complete SAS Registration and receive the necessary Letters of Accommodation. After registering with SAS, you must present your Letter of Accommodation and discuss your needs with the course instructor as early in the term as possible. Please note that deadlines for the submission of documentation and completed forms to SAS are available on their website: <ul> <li><u>http://www.uwindsor.ca/studentaccessibility/</u></li> </ul> <li>Exam conflicts:         <ul> <li>If you have a conflict with two exams at the same time, you will need to talk to both instructors and ask which one is willing to move your exam to a different day or time.</li> </ul> </li>		
	If you have a conflict with examinations due to the following reasons, view the <u>Office of Registrar Alternative Final Exam</u> <u>Policy:</u>		
	<ul><li>Conflict with religious conviction during the regularly scheduled time slot.</li><li>Three or more final examinations in a 24-hour period.</li></ul>		

Requests for accommodation of specific religious or spiritual observance must be presented to the instructor no later than 2 weeks prior to the conflict in question (in the case of final examinations within two weeks of the release of the examination schedule). In extenuating circumstances, this deadline may be extended. If the dates are not known well in advance because they are linked to other conditions, requests should be submitted as soon as possible in advance of the required observance. Timely requests will prevent difficulties in arranging constructive accommodations. religious accommodation for students.01mar2013.web ver.pdf (uwindsor.ca)

#### Content confidentiality:

Lectures, examinations, quizzes, assignments, and projects given in this course are protected by copyright. Reproduction or dissemination of examinations or the contents or format of examinations/quizzes in any manner whatsoever (e.g., sharing content with other students or websites), without the express permission of the instructor is strictly prohibited. Students who violate this rule or engage in any other form of academic dishonesty will be subject to disciplinary action under <u>Senate Bylaw 31</u>: Student Affairs and Integrity.

#### **Recording of lectures:**

Lectures and discussions can be recorded by requesting explicit permission from the instructor. Students planning to do so shall send a request (via email is sufficient) before the lecture is delivered. Students, however, are not allowed to post or share any recorded material to any other individual or party outside of this course. See Senate Policy on recording lectures.

### Equity, Diversity, and Inclusiveness (EDI)

This course, along with all its components such as lab sections are, without question, safe places for students of all races, genders, sexes, ages, sexual orientations, religions, disabilities, and socioeconomic statuses. Disrespectful attitude, sarcastic comments, offensive language, or language that could be translated as offensive and/or marginalize anyone are absolutely unacceptable. Immediate actions will be taken by the instructor to protect the safety and comfort of the students. An ethnically rich and diverse multi-cultural world should be celebrated in the classroom. The instructor, too, must treat every student equally and with the respect and compassion that all students deserve. Furthermore, UWindsor is committed to combatting sexual misconduct. All members are required to report any instances of sexual misconduct, including harassment and sexual violence, to the <u>Sexual Misconduct Response & Prevention Office</u> so that the victim may be provided appropriate resources and support options.

- https://www.uwindsor.ca/sexual-assault/
- For police/ambulance emergency call 911 (in Canada)
- For campus police call 519-253-3000 ext. 4444 for emergency, and 1234 for non-emergency issues.

#### Academic Integrity

Please refer to: https://www.uwindsor.ca/academic-integrity/

As defined in the University of Windsor's <u>Student Code of Conduct</u>, plagiarism is the act of copying, reproducing or paraphrasing significant portions of one's own work, or someone else's published or unpublished material (from any source, including the internet), without proper acknowledgement, representing these as new or as one's own.

Tips and resources to help you prevent plagiarism: <u>https://www.uwindsor.ca/academic-integrity/sites/uwindsor.ca.academic-integrity/files/tips</u> for preventing plagiarism.pdf

The instructor will put a great deal of effort into helping students to understand and learn the material in the course. However, the instructor will not tolerate any form of cheating. The instructor will report any suspicion of academic integrity to the Director of the School of Computer Science. If sufficient evidence is available, the Director will begin a formal process according to the University Senate Bylaws which will lead to more review, a strict punishment if convicted, and a note on your permanent student record.

The following behaviours will be regarded as cheating:

- Copying assignments or quizzes or presenting someone else's work as your own.
- Allowing another student to copy an assignment/project from you and present it as their own work; protect your own work and never share it with anyone!
- Copying from another student or any other unauthorized source during a test or exam.
- Falsifying your identity during the exam or having someone else assist or complete your assessment.
- Referring to notes, textbooks, and any unauthorized sources during a test or exam (unless otherwise stated).
- Speaking or communicating without permission during a test or exam.
- Not sitting in the pre-assigned seat during a test or exam.
- Communicating with another student in any way during a test or exam.
- Having unauthorized access to the exam/test paper prior to the exam/test.
- Explicitly asking a proctor for the answer to a question during an exam/test.

SAFETY, ACADEMIC INTEGRITY, AND NON-ACADEMIC MISCONDUCT:

**PRIVACY AND** 

**COPYRIGHTS:** 

- Modifying answers after they have been marked.
- Any other behaviour which attempts unfairly to give you some advantage over other students during the gradeassessment process.
- *Refusing to obey the instructions of the officer in charge of an examination.*

The list given above is not exhaustive. More examples are given in Appendix A, <u>Senate Bylaws 31</u> – Complete guidelines and procedures on the sanctions imposed by the university are also listed in Table A.1 of the <u>Senate Bylaws 31</u>

In this course any assessment that is deemed plagiarized or in violation of the academic integrity policy will NOT BE GRADED and receive a grade of ZERO unless a different ruling is provided by the adjudication committee formally reviewing the case.

Examples of sanctioning include: (from Table A.1 in Appendix A of Bylaw 31) For first offence: mark reduction up to zero, censure 6-12 months; and for subsequent offence: suspension 4-24 months, censure up until graduation.

## Plagiarism detection software:

Plagiarism-detection software *SafeAssign* will be used for all student assignments in this course. You will be advised how to submit your assignments. Note that students' assignments that are submitted to the plagiarism-detection software become part of the institutional database. This assists in protecting your intellectual property. However, you also have the right to request that your assignment(s) not be run through the student assignments database. If you choose to do so, that request must be communicated to the course instructor in writing at the beginning of the course. The instructor reserves the right to choose another plagiarism detection software and students will be notified once it is used.

## Use of Generative AI (Artificial Intelligence) tools is prohibited:

Students cannot use Generative AI tools (e.g., ChatGPT, Bard) to produce assignments or reports. Any assignments or reports submitted by students must be their own work and must be free from AI-generated content
